Quick Start Guide

AirSentric WB55 Indoor Air Quality Monitor

1. Pre-install check

❑ Test Ethernet port for internet access

2. Create HEX User Account

❑ Register at https://hex2.nuwavesensors.com
❑ Add your monitor and gateway here

3. Connect Gateway

❑ Attach antenna and point upwards
❑ Connect to power and Ethernet port

4. Connect Monitor

❑ Connect to power, wait up to 5 minutes
❑ Middle LED turns solid blue once fully connected

5. View Data on HEX

Notes:

1) It is recommended to read the Operating Manual in full – download here.
2) Monitor should be positioned within range of gateway.
3) Multiple monitors form a mesh network which increases coverage. The Zigbee topology tool in your HEX dashboard can be used for verifying network signal strength during commissioning.
4) The gateway is pre-configured for DHCP to suit most networks. For alternative configurations see Operating Manual.
